

## **Health, Safety & Environment Policy**

We commit ourselves for a safe, environment- friendly workplace for our all stakeholders on our premises and around. The Health, Safety of our employees and conservation of environment as well as natural resources shall be our goal and it shall be achieved through the following processes and initiatives.

- Promoting awareness about health, safety, and Environment among the stakeholders through training and participative activities.
- Enforcement of safe practices and involvement through committed participation of all employees.
- Ensuring compliances of all legal requirements related to Health, Safety Environment or other requirements subscribed to.
- Establishing, improving and sustaining mechanism of setting targets, allocating resources, implementing and monitoring programs for preventing work related injuries, potential health hazards and pollution.
- Achieving continual improvement through effective PDCA approach for objectives and targets for Health, Safety Environment.
- Designing, manufacturing and marketing green products that reduce /mitigate adverse impact on environment, in relevant scope of our business activities where ever possible.

Our aim is an accident free, pollution- free workplace and good health of all employees.
